

During an internship with this agency, I would like to:

- Learn about current environmental issues and successful management strategies;
- Train with professionals in the field to gain practical experience in creating and maintaining wildlife habitats;
- Improve interpersonal skills by working on tasks at different levels within the agency;
- Enhance leadership skills by observing and working with members of management; and
- Facilitate positive changes in the environment to benefit the community.

The goals that I want to accomplish during my internship are to:

- observe agency supervisors to further develop my communication skills and overall leadership effectiveness;
- gain a thorough understanding of the process used to properly fund and execute quality programs;
- improve my leadership ability while gaining hands on experience developing and leading programs for diverse populations;
- enhance my supervisory skills by using management principles to solve problems that arise within an organization;
- further my knowledge of the daily operations that take place within a public recreation agency; and
- explore laws and procedures associated with risk management in the field of recreation.

During my internship, I would like to achieve the following goals:

- improve my writing and documentation skills, including correct medical terminology and progress notes;
- gain experience interacting with and accurately assessing patients with diverse needs and backgrounds in a clinical setting;
- increase experience in designing effective programs based on appropriate goals and objectives developed through the assessment process;
- enhance experience working with multi-disciplinary treatment teams to achieve client goals; and
- strengthen my confidence in leadership roles while working with clients of all ages.
